

About us

Bauhaus is an independent, vibrant, home design and construction company covering Greater London. We take pride in putting our clients first and ensuring they get the best deal on their home enhancement project. Unlike a sole builder, we have our own dedicated architects and surveyors to assist with the management of a building site. We strive on maintaining our quality standards by putting you, the customer, first!

DAR Consulting Ltd t/a Bauhaus has been trading in the UK since 1999. The directors of the company have been involved in various fields to do with construction and engineering industries as well as refrigeration and airconditioning.

Over the last 12 years much work has taken place in Saudi Arabia where we have been responsible for the design and management of government building projects, including Riyadh, Mecca, Medina and Tabouk central markets.

Recently our projects are focused on the UK market including building new homes and enhancing existing ones with extensions and loft conversions. We at Bauhaus are always looking for new development opportunities around the world so please do not hesitate to contact us regarding a project feasibility study.
